Encon IT

Dental

What is the number one *pain point in your dental practice*?

IT issues?

When you suffer from IT issues in your practice it affects everything. It slows down your day and creates frustration in the office and with patients. However, the thought of finding a solution can be overwhelming and you might think, expensive. Not anymore! Encon IT can remove the stress and help you focus on your passion, providing quality care for your patients. From moving your practice to storing your data to resetting your password, Encon IT provides total HIPAA compliant managed IT services. Taking the stress from your team and allowing them to focus on your patients, we will create an IT environment that is efficient, reliable and affordable.

- ➢ HIPAA certified staff
- ➢ Dental industry experts
- ➢ Real time problem solutions
- ➢ Clean internet security
- ➢ Dental software knowledge (Dentrix, EagleSoft, Weave, DEXIS, PowerPay)
- ➢ Remote log-in process for employees
- ➢ Dental software vendor management

For a free evaluation of your IT environment, contact us at **(214) 432-0105** or **sales@enconit.com**.

I've worked with several IT companies over the last 20 years. Believe me when I say this… "Sounds like I'm describing my best employees ☺ Encon IT understands what's going on and they get the job done! So choose your most valuable team players and put Encon IT on that team". – Aaron, Dental Practice
